

Senior Internal Auditor (Finance)

Responsibilities :

- In this role, you will take full responsibility for planning, managing, and completing complex internal audits across national and international entities within the Eberspächer Group.
- You will analyze and evaluate business processes, internal control systems, and risk management frameworks, identifying optimization opportunities with a strategic and forward-looking perspective.
- You will coordinate internal and external members of the audit team and ensure efficient, goal-oriented collaboration throughout each engagement.
- Working closely with your colleagues, you will develop practical and actionable recommendations and actively support the implementation of sustainable improvement measures.
- You will present audit results confidently and convincingly to senior management and act as a trusted advisor to business units on all audit-related matters.
- You will also contribute to the continuous enhancement of audit methodologies, standards, and digital tools.
- In addition, you will independently conduct special audits and project-related reviews, bringing your expertise into cross-functional initiatives and supporting the organization with high-quality insights.

Profile:

- Successfully completed university degree in Business Administration, Business Informatics, or a comparable field
- 3-5 of relevant professional experience in internal audit or with an external audit or consulting firm
- Strong analytical skills, quick comprehension, and the ability to assess complex issues with precision

- Professional and confident demeanor combined with excellent communication skills and diplomatic sensitivity
- Ideally, practical experience with SAP R/3, particularly in the FI, SD, MM, and PP modules
- High willingness to travel and enthusiasm for working in an international corporate environment
- Interest in globally planned audit assignments that are coordinated well in advance
- Very good English skills, both written and spoken; German is a plus.
